### **A Message from Her Honour The Lieutenant Governor of Saskatchewan**

It is my sincere pleasure to extend greetings on behalf of Her Majesty Queen Elizabeth II, Queen of Canada, to everyone taking part in the RCE Saskatchewan 2016 recognition event at the beautiful Treaty Four Centre.

In her book *Rebirth of the Goddess*, Carol Christ writes:

“We live in a time when humanity has developed the capacity to destroy itself and most of the other species with which we share this planet. Warfare is perpetual. The gap between the rich and poor widens. Mothers and children around the world live in poverty and violence. Rivers and streams, the sea and the dry land and the air we breathe are being poisoned and polluted. Forests are being destroyed. The end result of the course we are on will be a world radically less beautiful, radically less diverse, and radically less full of life than it is now. The moral challenge of our time is whether human beings can find ways to live in greater harmony with each other and all beings in the web of life.”

This thought-provoking statement was written in 1998. Eighteen years later, the question remains, can we find ways to live in greater harmony?

The work of RCE Saskatchewan and their partners around the world is reason for hope. Furthermore, the projects being recognized today have been created by people of vision, who imagine a world with a bright future. Congratulations on being selected to be part of this exciting gathering. I thank you, most sincerely, for your commitment to sustainability. You are proof that we can make a difference, and together, we can change the world.

Vaughn Solomon Schofield  
Lieutenant Governor

## **8th RCE Saskatchewan Education for Sustainable Development Recognition Event Treaty Four Governance Centre, Fort Qu'Appelle, Saskatchewan Wednesday, May 4, 2016**

### **PROGRAM**
